4. FIRST-AID MEASURES

SKIN CONTACT

- If irritation occurs, do not rub or scratch. Rinse under running water prior to washing with mild soap and water. If irritation persists, consult a physician.

EYE CONTACT

- If irritation occurs, flush eyes with plenty of water. Do not rub the eyes. Consult a physician if irritation persists

INHALATION

- Normal use of the product does not present a hazard

SKIN CONTACT

- If irritation occurs, do not rub or scratch. Rinse under running water prior to washing with mild soap and water. Use a washcloth to help remove fibers. If irritation persists, consult a physician.

INGESTION

- Seek medical attention if discomfort persists

Treatment

- Treat symptomatically

5. FIRE FIGHTING MEASURE

Extinguishing media

- Water spray, foam carbon dioxide or dry powder.

Further information

The product will burn if heated and/or exposed to sources of ignition. Burning produces dense black smoke and toxic gases. Fire fighters should use self-contained breathing apparatus when tackling the Fire.

6. ACCIDENTAL RELEASE MEASURES

Collect up using mechanical means and place in a suitable container pending disposal.

7. HANDLING AND STORAGE

Store in original packaging in a cool dry place away from direct sunlight. Do not expose to temperatures in excess of 400 C to prevent roll distortion. Keep out of reach of children.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

No special measure – use good hygiene. The use of a proprietary barrier cream will aid the removal of the impregnate compound should contact occur. Do not eat, smoke or drink during use. Wash hands thoroughly after use and before breaks.

9. PHYSICAL AND CHEMICAL PROPERTIES

- | | |
|-----------------------|---|
| ▪ From | : Special foam in strips compressed for winding in rolls. |
| ▪ Color | : Black |
| ▪ Odor | : Negligible |
| ▪ Density | : ± 120 kg/m ³ |
| ▪ Flash point | : Not available – non – flammable |
| ▪ Solubility in water | : Insoluble. |

10. STABILITY AND REACTIVITY

Stable and uncreative during normal use. The impregnate component will dissolve when in contact with organic non – polar solvents.

11. TOXICOLOGICAL INFORMATION

Non information at this time.

12. ECOLOGICAL INFORMATION

No information at this time. In soil and water the material is only slowly biologically degradable.
